VISUAL DESIGN / AI EXPLORATION

Ideas that make an impression.

Between a concept and an image, a new point of view.
Explorations of brands, products and culture.

São Paulo, Brazil

ORBIT / 002

Sound takes shape.

AI-assisted concept campaign

Independent AI-assisted studies. Fictional brands and event; no clients, marketed products, published campaigns or measured results are claimed.

01 AURA
Beauty / A ritual of light

02 ORBIT
Audio / Beyond sound

03 ENTRE
Culture / A city on pause

FICTIONAL BRAND / BEAUTY / CAMPAIGN + AI

AURA / A ritual of light

A pause from excess. A beauty world built around light, transparency and breathing room.

KEY VISUAL / FICTIONAL STUDY

#d0b9e6 #f1edf7 #302639

THE CHALLENGE

How can a self-care ritual be presented without promises of transformation? Develop a launch concept for a fictional beauty brand, focusing on visual experience and time for oneself.

THE CENTRAL IDEA

“Your ritual. A new light.” The bottle becomes a point of calm. Frosted glass, pearlescent stone and a translucent arc turn light into material.

VISUAL DECISIONS

+ Soft lavender and pearl white create a serene atmosphere.
+ Asymmetrical composition with generous negative space.
+ Type sits outside the generated image to keep the message editable.

AUDIENCE AND INTENTION

Imagined audience: people interested in beauty and daily rituals. Communication goal: create curiosity and visual recognition, without cosmetic efficacy claims.

PRODUCTION AND LIMITS

Image generated in Runway. Editable SVG applications: social 1080 × 1080 and banner 1600 × 900. Fictional bottles, labels and packaging; materials and industrial feasibility unvalidated. No formulation, tests or technical production files.

No campaign launch, audience testing or commercial results.

FICTIONAL BRAND / AUDIO / PRODUCT STORYTELLING + AI

ORBIT / Beyond sound

Sound takes shape. An everyday object gains a world of its own, between precision and imagination.

KEY VISUAL / FICTIONAL STUDY

#0d0c10 #bd9bff #e7deef

THE CHALLENGE

Create a digital campaign for an imaginary pair of headphones. The challenge is to suggest an immersive listening experience through visual language, without inventing technical specifications.

THE CENTRAL IDEA

“Sound takes shape.” A glass ring turns a sound wave into an orbit. The product becomes the composition's centre of gravity.

VISUAL DECISIONS

+ Graphite and black bring out the object's form.
+ Violet works as light, atmosphere and a consistent campaign thread.
+ Short messaging and different framing for social and banner formats.

AUDIENCE AND INTENTION

Imagined audience: people drawn to music, technology and visual culture. Communication goal: build a distinctive presence for digital launches and social channels.

PRODUCTION AND LIMITS

Image generated in Runway. Editable SVG applications: social 1080 × 1080 and banner 1600 × 900. Visual concept, without a 3D model, prototype or verified specifications. No battery, audio or noise cancellation claims.

No campaign launch, audience testing or commercial results.

FICTIONAL EVENT / CULTURE / VECTOR SYSTEM

ENTRE / A city on pause

Between one corner and the next, room to connect. A graphic system for an imagined cultural gathering.

KEY VISUAL / ORIGINAL ARTWORK IN PORTUGUESE

#ff693b #f1e9da #171717

THE CHALLENGE

Develop a visual language for a fictional independent cultural gathering. Connect posters, social media and a ticket without relying on photography or an invented line-up.

THE CENTRAL IDEA

“A city on pause.” Arches, circles and blocks recall urban passages. The shapes rearrange for each format, like different encounters in the same place.

VISUAL DECISIONS

+ Orange for energy; cream for breathing room; black for contrast.
+ Modular geometry with a consistent typographic hierarchy.
+ Editable vector sources and outlined-type exports.

AUDIENCE AND INTENTION

Imagined audience: people exploring art, design and urban culture. Communication goal: invite a more attentive and curious look at everyday life.

PRODUCTION AND LIMITS

AI-assisted system executed in VectorCraft 0.12.0: poster, social artwork and ticket. Editable native sources; outlined SVGs. Includes a silent 4 s motion study. The event is fictional and the ticket grants no admission.

No campaign launch, audience testing or commercial results.
